Boost Your Immunity, Naturally

Getting sick happens. But that doesn't mean it has to slow you down. A go-to for any sick day and an essential for your medicine cabinet, SHIELD Immune Supporting Hemp Extract naturally activates and strengthens your immune system.

Ingredients

Time-Tested Botanicals

A medicine cabinet must have, SHIELD strengthens and naturally activates the immune system with more than 15 ancient herbs and time-tested botanicals. Just a few of SHIELD's botanical ingredients include:

Skullcap

The name may sound a bit unpleasant, but Chinese Skullcap's benefits are anything but. Widely used in Eastern medicine for centuries, oil from the Skullcap flowering plant is known to balance beneficial inflammatory responses in the immune and respiratory systems. And, as an immunomodulator, it helps activate coordinated immune responses to varying threats.

Natural, Plant-Derived

CBG

CBG directly activates the endocannabinoid system's (ECS) CB2 receptors that are located primarily on the immune system. This ECS activation helps create a stable and balanced environment for your immune system to thrive and supports its role of guarding your health and well-being.

Certified Organic Hemp

Elderberry

Blooming from the European elder tree or Sambucus, elderberries are packed with antioxidants and vitamins. Elderberry is one of the earliest botanical remedies used to support immune system health and ease cold and flu symptoms like chills, fatigue, congestion and sore throat.

Plant-Derived

Protection You Can Rely On

A stronger immune system not only protects you from the physical symptoms of being sick, it supports peace of mind and helps alleviate the mental stress that can hinder your body's ability to get well faster.

Last week we announced SHIELD's new price change, which now saves you more than 28% on SHIELD compared to the original cost, decreasing the price by \$40 for Brand Partners and \$45 for Customers.

It's a win/win for both your wallet and for supporting and boosting your body's natural line of defense.
